Click here or call 1-800-367-6372 to locate an authorized Mercedes-Benz dealer near you to obtain more information about this recall

🔗 Learn more about this recall

Description: Mercedes-Benz AG ("MBAG"), the manufacture of Mercedes-Benz vehicles, has determined that certain Model Year ("MY") 2019-2021 A-Class, CLA, GLA and GLB (177, 118, 247 platform) vehicles might not be equipped with the inspection gauge for checking the wear of the rear axle brake pads. Furthermore, the respective information for using this inspection gauge might not be included in the owner's manual. If an increased wear on the brake pads on the rear axle is not identified, this might increase the risk of a crash. An authorized Mercedes-Benz dealer will add the inspection gauge and enclose the supplemental owner's manual information for using this inspection gauge on the affected vehicles.

If an increased wear on the brake pads on the rear axle is not identified, this might increase the risk of a crash.

Remedy: An authorized Mercedes-Benz dealer will add the inspection gauge and enclose the supplemental owner's manual information for using this inspection gauge on the affected vehicles.

🔗 Learn more about this recall

Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain MY20-21 CLA (118 platform), MY19-22 A-Class (177 platform), MY22-23 C-Class (206 platform), MY24 CLE (236 platform), MY20-26 GLA/GLB (247 platform), and MY23-24 GLC (254 platform) vehicles, the housing material for the door-lock microswitch might be

more susceptible to moisture permeation Over time, this might lead to corrosion on the microswitch and subsequently to the failure of the component. Upon such a failure, the microswitch might not detect when the door is opened. The microswitch failure does not affect the operation of the door lock itself. Should the microswitch fail on the driver door, the electronic parking brake and/or the "Auto-Park" feature connected to the driver door opening might not engage automatically. As a result, the vehicle might not be secured against rollaway and the vehicle might move, increasing the risk of a crash. An authorized Mercedes-Benz dealer will replace the driver door lock on the affected vehicles.

Over time, this might lead to corrosion on the microswitch and subsequently to the failure of the component. Upon such a failure, the microswitch might not detect when the door is opened. The microswitch failure does not affect the operation of the door lock itself. Should the microswitch fail on the driver door, the electronic parking brake and/or the "Auto-Park" feature connected to the driver door opening might not engage automatically. As a result, the vehicle might not be secured against rollaway and the vehicle might move, increasing the risk of a crash.

Remedy: An authorized Mercedes-Benz dealer will replace the driver door lock on the affected vehicles.

Glossary

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 8/4/26 at 5:11:29 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
